

Summary

Backend Engineer with hands-on experience building scalable RESTful APIs and distributed systems in Python (Django, Flask). Passionate about clean architecture, database optimization, and writing code that scales. Seeking backend or full-stack engineering roles where I can contribute to high-impact products.

Skills

- **Languages:** Python, JavaScript
- **Frameworks:** Django, Flask, ReactJS, VueJS
- **Databases:** PostgreSQL, MySQL, Redis
- **Infrastructure:** Docker, Google Cloud, Linux, Microservices
- **Tools & APIs:** Git, GitHub, REST, Swagger, CI/CD

Experience

Backend Engineer, *Unaeon*

April 2023 - November 2023

- Reduced test suite runtime by **50%** by parallelizing the **CI/CD pipeline**, cutting release cycle time, and computing costs.
- Eliminated unplanned downtime across multiple **backend services** by identifying and resolving critical **memory leaks**.
- Cut primary **database load** significantly by implementing **Redis LFU caching** on high-frequency queries, improving **API response times**.
- Delivered full **CRUD REST APIs** in **Python/Django** and authored **Swagger docs** that accelerated frontend engineer onboarding.

Projects

TezSpider - *Distributed music streaming service*

- Crawls **5 different** music websites in **parallel**.
- Serves up to **200K concurrent** users streaming music.
- Caches songs using the **Least-Frequently-Used** policy for better performance using **Redis**.
- Used **Golang** for server-side and **scraping** music websites, and **ReactJS** for client-side.

KiskaURL - *URL shortening web service*

- Shortens long, messy **URLs** into more manageable and reusable URLs.
- Hashes URLs using a customized **MD5 hashing algorithm**.
- Displays the stats and details about recently shortened URLs.
- Used **Python** for the server-side and **ReactJS** for the client-side

Awards & Honors

- Secured top 50% in Google Kickstart Round F 2022 globally and top 30% nationally.
- Finalist at the National Collegiate Olympics in Informatics, Uzbekistan, in January 2020

Education

Vistula University B.Sc. Computer Science*March 2022 - August 2025*
